## **Madli Must:**”Working with young people adds colour to your life”

### **Introduce yourself and your organisation (incl. the structure in which you operate in the youth field).**

I am Madli and I work as a youth worker at Taheva Open Youth Centre. The youth centre is special because it is housed in the same building as Hargla Culture Centre. The entire building is used jointly. Young people have been created an opportunity to play on a PlayStation, play table games, table football, table tennis, basketball, and the drums. The building has a large hall where the favourite game is a tag game. Music lovers have an opportunity to use the DJ station of the youth centre with sound and lighting equipment and a drum set.

### **What makes your work exciting?**

My work is exciting because of the young people who have an endless string of good ideas that need to be implemented.

### **What are your dreams as a youth worker?**

I dream that there will continue to be bright young people who are eager to learn new and interesting things in this oversaturated world.

### **Why did you choose youth work?**

Working with young people adds colour to your life and keeps you young.

### **How has youth work / being a youth worker influenced you? (What have you learned from it?)**

I learn something new with young people every day; for example, what does BOOMERANG mean, how to make SLIME and who are currently the most popular YOUTUBERS. You have to be prepared for never being bored at work.
